Stirring Scenes Take Place in the New Republic of Portugal---England May Intervene

"LISBON IS TODAY LIKE A CITY OF THE DEAD" SAYS DESPATCH

Many Hundreds Are Believed to Have Lost Their Lives When the New Republic Was Formed—Royal Family Believed to Be In Danger and Great Britain May Intervene to Ensure Their Safety.

Lisbon, Oct. 6.—The foreign office today received a telegram signed "Theophile Braga, Provisional President of Portugal," announcing the formation of a provisional government and the proclamation of a republic and guaranteeing public security. Identical notes have been sent by Braga to all the powers.

Lisbon, Portugal, Oct. 6.—The capital is now completely in the hands of the Republicans who have formed a provisional government with Theophile Braga as president.

A new flag of red and green is flying over all public buildings. King Manuel with the Queen Mother Amelia, and his grandmother, the Queen Dowager, Maria Pia, have taken refuge at Alfama, twenty-three miles from Lisbon. Already the Spanish minister in full uniform, has called to pay his respects to the Republican leaders.

Paris, Oct. 6.—A French correspondent who has just reached Bayonne from Lisbon has sent an account by telephone of the outbreak and the scenes which followed.

"Lisbon," he says, "is today like a city of the dead. The Republican flag floats triumphantly over every public building in the Capital."

Contrary to first reports this account was the ships which began the bombardment of the palace. It was the Fourth Artillery regiment which commenced cannonading as soon as the firing within the city began. Meanwhile the first artillery regiment and an infantry regiment attacked the municipal guards which were holding the lower part of the city and preventing insurgent troops from joining their comrades. Unofficial advices have reached Bayonne to the effect that the revolutionary movement has carried Oporto.

Vigo, Spain, Oct. 6.—The number of casualties as the result of the fighting in Lisbon is very large. The dead exceeded 100 in the early stages of the outbreak according to authoritative advices brought by the steamer "Cap. Blanco." The steamer was lying off Lisbon when the fighting within the city started. According to the story of the passengers of "Cap. Blanco," the revolution broke out immediately after a banquet at the royal palace in honor of Marshall Heras Fonseca, president elect of Brazil. Persons on the deck of the steamer witnessed some stirring scenes in the streets along the water front. Twice they saw the cavaliers charge the mob. They also watched the bombardment and storming of the Necessidades palace. Crowds of dock laborers who were watching the bombardment cheered roughly as they saw the shells drop.

Lisbon, Oct. 6.—It is impossible to estimate the number of those killed or wounded in yesterday's fighting, but it is expected to reach several hundreds. The city has been considerably damaged by the bombardment of insurgent warships. The building occupied by the ministry and the Necessidades Palace were made the particular target of shells from the warships and they show the effects by broken walls and turrets.

The tower of the church attached to the palace was demolished. Thus far however, no attack has been made upon private property, and it is reported that the banks are being guarded by blue jackets. No news has been received from the provinces, as communication has largely been cut off and dispatches and messages of all kinds have been suppressed. All through the night the artillery fire

CANDLES OR CASH

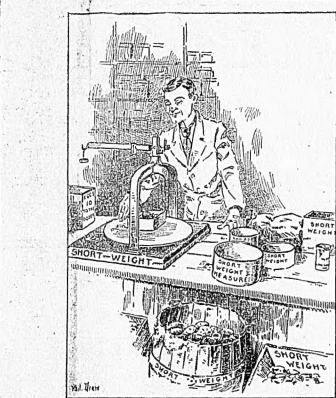

Where was Moses when the light went out? is an old question, but where will many of Edmonton's citizens whose electric light bills are long overdue, be when the glow is doused, next week?

At yesterday afternoon's meeting of the city commissioners instructions were issued to the electric light department to discontinue the service to a long list of those who have developed a peculiar distaste for liquidating their accounts. There were many prominent names in the list read yesterday, but the requirements of the city bylaw will be enforced without regard for race, color or creed.

"As the sun shines upon the just no less than upon the unjust, so must the darkness in this instance fall on the small and great," quoth Commissioner Bouillon.

FORMAL PROCLAMATION

Mexico City, Oct. 5.—The formal proclamation of the election of General Porfirio Diaz and Ramon Corral, as president and vice-president respectively of the republic for a term of six years from December 31st next, was made today by a committee appointed for that purpose by the national congress.

Y.M.C.A. TO START CAMPAIGN TO RAISE \$36,000 IN SIX DAYS

For six days commencing Tuesday, October 18 and continuing till Monday, October 24, the Edmonton Young Men's Christian association will conduct a campaign to raise \$36,000 for the purpose of wiping off the debt on the present building and effecting alterations and extensions to the plunge and shower baths. The directors of the association have decided on these dates as the most advantageous and opportune, and it is expected the campaign will go with a swing. The plan of campaign will be similar to that adopted by C. S. Ward in Toronto, in May last when \$800,000 was raised in twelve days.

One of the features of the Y.M.C.A. equipment at the present time is the plunge bath. In a city such as Edmonton where to bathe in the river

PREMIER SIFTON IN OTTAWA TODAY

Says He is There to Arrange Compensation to Be Paid Dominion Government.

FOR BUILDINGS TAKEN

By the Provincial Government—Didn't Tell Anybody Where He Was Going.

Toronto, Ont., Oct. 5.—Two passengers to arrive in Toronto from the West today were Hon. A. L. Sifton, premier of Alberta, and Hon. W. H. Cushing. Mr. Sifton went right through to Ottawa, while Mr. Cushing remained here.

Ottawa, Oct. 6.—Sir Wilfrid's callers today included Hon. A. L. Sifton, premier of Alberta. Mr. Sifton says that he is here to arrange the compensation which the Alberta government will grant for the buildings taken over from the Dominion government.

Officials at the legislative building this morning were unaware, or else they were not at liberty to tell of Premier Sifton's trip to the East. One official informed the Capital this morning that the premier was still in Calgary. It is quite probable that the premier left for Ottawa without notifying his secretary.

WOULD BENEFIT LOCAL BUILDERS

Secretary of Edmonton Builders' Association Tells What Affiliation Would Mean.

HELP IN LEGISLATION

With Co-operation it Would Be Possible to Get Many Bills Passed by the House.

Mr. A. O. Wetmore, secretary of the Edmonton Builders Exchange was questioned this morning as to whether the proposed affiliation with the National Association of Builders Exchanges of Canada would affect the Edmonton Exchange.

"Oh, yes," he replied "in many ways."

"For instance?"

"Well, in regard to procuring legislation. The eight hour bill has been presented to the legislature four times and we have been successful in getting it shelved, but without co-operation it may go through."

"Then in the event of any labor union troubles we have the help of the National association and of the affiliated exchanges. If as a result of this movement the various exchanges in Canada unite we will create as powerful an organization as the Canadian Manufacturers association. Why, the president of the International Bricklayers union himself said that if the builders were organized as the trades unions, a strike in Canada could not last two hours."

"Then of course we have local interests such as The Workmen's Compensation Act, and the Lien Bill, both of which may work great hardship on the general and the sub-contractors. But by co-operation with the various exchanges and the National association an effort to modify these bills would have considerable effect."

"Take the case of Calgary and Edmonton for example. If these two cities were united they could modify such acts—not do away with them, mind you, for we must have them. Still the men in the Legislature are not practical builders nor in a position to put them on a basis that is just and equitable."

SIR ERNEST SHACKLETON'S NEXT ANTARCTIC JOURNEY.

It is not generally known that Sir Ernest Shackleton will at no remote date again revisit the Antarctic continent. A recent number of The Geographical Journal, the official organ of the Royal Geographical Society, contains the following announcement by Major Leonard Darwin: "Sir Ernest Shackleton is organizing an expedition to survey the almost-unknown coast from Cape Adare to Gaussberg; and certainly one who has already done so much to maintain the high reputation of British explorers will set forth with the hearty good wishes of all his fellow countrymen."

GUNNER TOM ALLEN PLEADS NOT GUILTY

To Charge of Murdering Capt. Ellison—Defense Will Be Temporary Insanity.

Victoria, B.C., Oct. 6.—Gunner Thomas Allen was yesterday arraigned at the assizes. He pleaded not guilty to the charge of murdering Capt. Ellison, commanding the 5th R.C.G.A. Allen, who is a crack shot is alleged to have shot at Ellison from an upper window while the latter was crossing the barracks square. It is said he had been drinking heavily for some weeks and thought the commanding officer treated him meanly by frequent punishment. After his arrest he said he only meant to maim him. The defense will be "temporary insanity" as there was no intent to kill in the case.

THREE TOWNS ON C.N.R. FIRE SWEEP

Rainy River District Again a Prey to All-Consuming Forest Fires.

FOUR PEOPLE MISSING

Graceton, Williams and Cedar Spur Are the Towns That Are Destroyed.

Fort Francis, Oct. 5.—The latest reports from the fire districts along the Canadian Northern Railway confirm the complete destruction of the villages of Graceton, Williams and Cedar Spur. There is no known loss of life, but three residents of Graceton, names unknown, are missing, and are believed to have been burned. Unconfirmed reports say that the village of Pitt was also destroyed. The fire appears to be twenty-five miles in width.

International Falls, Minn., Oct. 5.—Canadian Northern officials at Fort Francis fear that the worst reports concerning the destruction of the town of Graceton on their lines in Beltrami county are true. Fires have been raging in the vicinity for several days, fanned by high winds, and the whole country is as dry as tinder. Bridges, telegraph and telephone poles for miles around Williams, Cedar Spur, Graceton and Pitt, all the lumbering hamlets are destroyed, and communication with these places has been cut off.

Duluth, Minn., Oct. 5.—Four Graceton people are missing, but it is believed that the other inhabitants escaped with their lives. The town itself is believed to be Cedar Spur and Pitt. Residents of these two points, however, got away unscathed. The fire is between twenty and thirty miles wide. Two gangs of a hundred men are fighting the flames under the leadership of Supt. Wilcox of Rainy River.

FREIGHT WRECKED AT FLEMING, SASK.

Engineer and Fireman Jumped and Escaped With a Few Bruises.

OPPOSITE THE STATION

Water Tank Hid Track From View and Freight Crashed Into Sanding Train.

Fleming, Sask., Oct. 6.—A bad wreck occurred here at a quarter past ten this morning on the main line of the C.P.R., when a through westbound freight crashed into the rear end of a way freight standing in front of the depot. Engineer Crawford and fireman McCausley jumped from their engine, No. 2605, and escaped with bruises. The caboose and three cars of the way freight were telescoped and the wreckage strewn all over the platform. The permanent way is blocked but the wrecking train is coming from Broadview. The cause of the accident was due to the engineer not seeing the way freight standing at the depot and this was due to the inconvenient placing of the water tank which obscures all view from the approaching trains from the east.

SAYS TREATMENT OF IRELAND A BLOT

Sir Wilfrid Laurier Deplores the Way in Which England Refuses Autonomy to Ireland.

Ottawa, Ont., Oct. 6.—In moving a vote of thanks to T. P. O'Connor, who delivered an address on Home Rule at the Russell yesterday evening, Sir Wilfrid Laurier said her treatment of Ireland was the only blot on England's record. He said he could not understand why England should grant autonomy to Canada and to South Africa and not to Ireland.

"TIMES" BUILDING WRECKED BY MINER

Police Believe That Dynamite Outrage Was Perpetrated by Expert Miners.

Los Angeles, Oct. 6.—It is believed that the men who carried out the plot to wreck the Times building were expert miners from the gold districts of northern California. This theory is based on the fact that the men who purchased the dynamite gave the name of J. L. Bryson, a Dutch county miner, and detectives are trying to trace them back to the mining districts.

This is Your Last Chance

To Buy a Homesite at a Reasonable Price

In the Beautiful West End

Dovercourt

"Nature's Beauty Spot"

Is the last Subdivision within the City Limits, with the exception of the Hudson's Bay Property, which has not yet passed out of the hands of the original holders.

When this Subdivision is sold there can be no more

Your chances are narrowing ; come quickly as these lots are selling fast. Do not lose this last opportunity.
We want you to see this property. Our motor cars are at your disposal. Come in and make an appointment.

Can You Beat This?

Dovercourt is situated entirely within the City limits, south of Alberta Avenue and north of the West End Park. Street railway extensions along Alberta Avenue, which are now on the programme which the city is to carry out in the near future, will place these lots within a few moments ride of the heart of the city. The Interurban Railway will build to St. Albert along the St. Albert trail within the next six months providing a direct line down town from this property. Remember that the area of the earth does not change ; that when these lots are gone there cannot be any more at the same price within the same distance of the city. Better to buy now and provide yourself with a homesite which will, within a very few months have all the advantages, than to wait and have to pay someone else a profit on the lots which you can get today at such a reasonable figure. **Come in and see the maps.**

Prices and Terms:—Dovercourt lots are being offered at the extremely reasonable prices of

AT P.S. GAMES

Field Events Were Run off Yesterday and Provided Good Competition

All sizes of boys thronged the playground at the high school yesterday afternoon, when some of the events in the public school games were run off.

Interest was at fever height and every competitor had the hearty support of the boys from his own school. For six weeks, all the competitors have been in strict training, and that they have had good instruction, is shown by their excellence in the different events. Good marks were set in every event and the future of clean healthy sport in Edmonton looks bright when the boys start in at nine years of age to compete in field events.

Yesterday's events were part of the Friday programme and were run off in order to lighten the long list set down for Diamond Park. The staff of the different schools acted as officials, while J. W. Ward of the Y.M.C.A. performed the duties of referee.

Some excellent jumping was done in the senior events, the records for the broad jump and shot put going to J. Duncanson, J. Duncanson and J. Engler had a merry fight for the honors and show up as athletes of promise.

The following are the results in the events held yesterday afternoon:

BURT LEAVES EDMONTON

Will Make a Two Month's Wrestling Tour—Has Arranged Many Matches.

Budd Burt, the well-known light weight boxer and wrestler, left yesterday afternoon for a two month's trip. This time he will confine himself solely to wrestling, and has already a number of good matches arranged. Budd is the present champion of Minnesota at his weight, being a crafty performer on the mat. Boxing with him is only a sideline, and he abandoned the wrestling game upon his arrival in Edmonton, recognizing the fact that there was no local interest in it.

Burt fought three exhibitions here, knocking out Kid Johnson (colored), drawing with young Maxwell of Calgary, and being himself knocked out by Jimmy Potts. Though not a first class lightweight, being a little lighter he has always fought to the best of his ability, though he would do much better in the feather weight class.

Budd has trained George Le Page, Charlie Canale and other well-known wrestlers, picking up many useful wrinkles, so should give a good account of himself on his present tour.

CALGARY FOR COAST LEAGUE?

Wild Story Circulating in That City. Nothing Like Keeping a League Compact

(Calgary Herald.)

Inquiry at the office of Mr. Middleton this morning disclosed the information that he has gone to Vancouver and at the same time we learn that Secretary Hornbrook of the baseball club also left for the coast.

There is a rumor that the coast league will be somewhat different next season and that they want one more team to join. Can this visit to the coast by the two officials of the Calgary club be connected in any way with such a proposition?

Speaking to Mr. Middleton yesterday he did not state any such thing, such a move, although he knew about the coast league wishing Calgary to join.

"What do you think of two pennant races as suggested by the Edmonton press?" The Herald asked him.

"Let them have all the races they like," Hal said. "It would make no difference if they had a factory manufacturing one every minute for them. Calgary has won the pennant and that should be sufficient."

WHO WILL THE ATHLETICS PITCH IN THE FIRST GAME?

"Who will pitch the first game of the world's series for the Athletics against the Cubs?" is a question that will be asked daily from now until the big show opens.

Ask Connie Mack, leader of the American League pennant winners, and he will shake his head, smile, and give an honest reply. It is: "I don't know."

It may be Bender, Plank, Morgan or even Dygert, Aye, Jimmy Dygert, who won the sobriquet of warm-up pitcher during the season. Jimmy has discovered himself and today stands out with no peer among the spillover pitchers of the country. That may sound a little strong, but nevertheless it is true.

Dygert Found Himself.

Dygert was with the Athletics when they won the American League pennant in 1905, and most of the time ever since, but it was only a couple of weeks ago that he found himself.

He discovered that he had been utilizing his strength in winding up, and twisting his body a la contortionist, and he should have been expending it on the balls he was sending up to the plate.

He tried a new system. He did not wind up quite so much. He stopped trying to tie himself into a knot. He put the "stuff" on the ball and he has looked like the night-walker of the world in his recent games. He has developed a slow spitter that is a gem, one which his team-mates believe would make the Cubs look worse in comparison than the Tigers did against Chance's team in 1907 and 1908.

EVERS IS OUT OF GAME.

On Sunday a terrible shock was administered to the Chicago Cubs and fans, when Johnny Evers was put out of the game for the rest of the season.

In sliding into the plate at Cincinnati he fractured several small bones in his ankle and won't be able to walk for two months.

This may mean the loss of the world's championship for Chicago. The small second baseman was one of the brainiest members of Chance's machine, and has won many games by his quick thinking. One particular instance, is the now famous Merkle episode.

Zimmerman the Cub's utility infielder will fill the vacancy at second, but the old combination, Tinker to Evers to Chance, will be sadly disappointed.

MUCH MONEY IN BASEBALL

St. Louis Nationals, With a Poor Second Division Team, Made \$175,000

(From the New York Telegraph.)

It is the big return on investments that attracts men to baseball. Even a poor team makes lots of money. One of the failures of the season is the St. Louis Nationals. It's a good team, and Roger Bresnahan, well liked in this city, is its manager. That is, it is good with the exception of the pitchers. Along in May this team, being in good condition and finding the others not yet in form, ran its average up to above .500. It won eight games in a row, four from New York. Money poured into its treasury, and it is estimated that the owner of the team has cleared \$75,000 this year. The Cubs of Chicago have earned \$20,000, their owner, and the New York Nationals have earned close to \$30,000. Then comes the St. Louis team as the next best winner. Every team in the National and American leagues made money this year.

VANCOUVER TEAM RETURNS.

Toronto, Ont., Oct. 6.—The Vancouver lacrosse team, Mann Cup champions, left for home last night after an unsuccessful attempt to lift the cup.

In a letter to the press they claim to have come east under false pretences. Who will pitch one

CALLIES, ATTENTION!

The committees of both A. and H. teams of the Canadian Football club are requested to attend an important meeting in the Separate school on Thursday, October 6th at 8.30 sharp. There are special arrangements to be made regarding the football club dance on October 13th. A full turn-out is requested.

ALDOUS WAS THE STAR.

In the rugby game at Winnipeg last Saturday between St. Johns and the Rowing, Jack Aldous, a brother of Hiram Aldous, the well-known local rugby and hockey player, was the bright particular star. Speaking of the game, the Free Press says:

"There was one individual who shone out over the 28 players in the game. This person was Jack Aldous at centre half back. Had Jack failed to show up, as was expected at first as he only got on the field when the teams were lining up, there would have been a different story to tell. His trusty toe proved the undoing of the yellow and black time and again, his long boots being the feature of the game. He took the ball at all angles and gained ground continually by the prettiest kind of punts. He ended up his splendid work by a beautiful drop kick. The little fellow should certainly show good form in the senior games this season."

RUGBY TODAY, TURN-OUT, BOYS

To Develop a Winning Team Hard Work and Condition Are Important Factors

The Eskimos will practice this afternoon at 5 o'clock and the management hopes to see a better turn-out than on Tuesday. This will be Coach Belanger's last chance to instruct the players this week, as he goes to Calgary on Saturday to referee the opening game of the City League between Y.M.C.A. and Tiger A. Our old side-partner Bill Crowley will be the other official. Reports from Calgary state that Madden, who last year played outside wing on the Eskimos, is starting on the Tigers half back line. Madden, who is an old Queen's University player, may prove a better turn-out than on Tuesday. IS ALL A MATTER OF PRECEDENTS

Judge Beck's face wore a troubled look at the conclusion of the case yesterday afternoon of Boudreau vs. Renault. The subject of the dispute was the hotel at St. Albert, at present managed by Lucien Boudreau, M.P., under lease from his uncle, the late Mr. Boudreau, and on which he holds an option to purchase. The facts of the case are admitted by both sides. The only issue is whether the administratrix was entitled to dispose of the hotel by sale or was only liable for the legal third she is entitled to.

The case goes back to the death of Joseph Renault, some years ago. His wife, who was appointed administratrix of the estate leased the hotel to Mr. Boudreau and renewed the lease in 1904. In 1906 he was pressed by the license department to make improvements and having no ready money he applied to Simon Cloutier, a boarder, from whom he borrowed money and together they took out a joint lease in which Cloutier shortly assigned his interest to Boudreau.

There was a troublesome clause inserted in the lease giving Boudreau an option of purchasing the hotel after July 1st, 1909, for seven thousand dollars. The plaintiffs are applying for specific performance of the contract or damages for the same.

It was agreed that no evidence as to damages should be taken and it was a misunderstanding on this point that led to calling Mr. Boudreau to the witness box. He confirmed the transaction when questioned by Mr. Wood. Mr. McCall sought to prove that he had advised his position as confidential adviser to Mme. Renault to extort from her an unfair agreement and that her ignorance of French had been taken advantage of to insert in the agreement the clause giving option of purchase.

Mr. Boudreau apologized for his discrepancies by appealing to his ignorance of law and law procedure and on the whole the judge was satisfied with his story.

The question came back to: First, Whether it was legal for the judge to order the sale to go through; Second, whether the defendant Mme. Renault went into the bargain with open eyes or whether she is not liable. In case the sale is not ordered, Mr. Boudreau claims "damages" taken to include repairs he undertook on the basis of the transaction.

The whole case is a matter of precedent and the judge avowed his intention to consider all the cases before rendering judgment.

"THE WOLF"

Starring as Jules Beaubien, Harold Nelson last night made a hit in Eugene Walter's great play of frontier life entitled "The Wolf" at the Empire Theatre. Nelson portrayed the principled and courageous French-Canadian in a masterful way. The company as a whole was exceptionally good. As McDonald, the civil engineer who delights in the betraying and deception of the opposite sex for his own personal advantage, G. Wynne Garrette, can lay claim to distinction. Carroll Ashburn played the part of Andrew McFavish, the wild old Scot and father of Hilda, and who continually refers to the bringing up of his daughter "according to the laws of God and the Presbyterian kirk," at the same time ill-treating her and insulting her beyond endurance. As Baptiste, the vindictive and vengeful French-Canadian, Arthur Snyder was also very good, but showed lack of stage presence. As Hilda, around whom the plot centred, Miss Hallie Mitchell, deserves commendation. R. E. Williamson, as George Hantley, the assistant to the engineer who in the end deserts him to assist Jules, completed an effective cast. "The Wolf" will be played for the last time tonight.

COMMISSIONERS MEETING.

At the meeting of the city commissioners yesterday afternoon, W. E. Skinner & Co., of Winnipeg, applied for a franchise to manufacture artificial ice during the summer months by the use of exhaust steam. The application was turned down because the commissioners considered that enough ice could be gathered in the winter time to meet the demand in the summer.

The site suggested for a power plant some time ago by a man who desired a consideration of \$2,000 for giving the information if it was acted upon, was fixed at \$27.20 according to the suggestion of the waterworks superintendent.

The rate for the water to the exhibition grounds during the fair was fixed at \$27.20 according to the suggestion of the waterworks superintendent.

Carruthers, Round and Company wrote stating that owing to the advanced state of the season, they would be unable to complete the whole of the grading of Athabasca Avenue, but would grade from the site of the Great Ravine bridge to the first ravine westward. Their request for plans and specifications showing the city's requirements for the work was referred to the city engineer, who will see that they get the required information.

It was decided to make an allowance of \$15 to Gorman, Clancy, and Grindley, for painting above the amount of the contract for the erection of the Great Ravine bridge, which they are taking over from the Dominion Bridge company, to whom it was awarded by the city.

The request of the Salvation Army for the annual grant of \$125 was paid over.

His Stock In Trade.

Lady Knill, Lady Mayores of London, who recently gave a banquet to the archbishops and bishops, is a woman of very religious and charitable sympathies. She is one of the three women in the world who possess the Order of the Holy Sepulchre, given to her for charitable work in the Roman Catholic diocese of Southwark. There she is known as "Queen of the Poor." In connection with her charitable work Lady Knill is rather fond of telling the story of a man to whom she gave a pair of boots. Some days later she met the man again wearing his old ragged pair. "What have you done with the pair I gave you?" she asked of him. "Oh," replied the old man, unthinkingly, "I left them off. These I am wearing are worth 10 shillings a day to me."—Tit-Bits.

Protecting Birds.

Nearly every native bird in New Zealand will be absolutely protected by law this year. The animals protection act provides that 1910 and every third year after that may, at the discretion of the governor in council, be declared a close season for native game. The absence of bird life in New Zealand is already most noticeable. Between Nelson and Hokitika, hardly any bird life at all is to be met with; the imported vermin, especially the stoat and weasel, have done their work of bird destruction only too well. In the region from Ross to the south, however, the tui and the pigeon are to be seen making bright the landscape with their presence.

The American wireless signal of distress, "S S S," was adopted because easily made and quickly recognized, three dots, three dashes and three dots.

Light of the Sun.

The sun gives 600,000 times as much light as the full moon, 7,000,000,000 times as much as the brightest star in the sky and 30,000,000 times as much as all the combined stars of the heavens.

Society Drama.

The parlor drama has the bulge on other plays with me. I love to hear the folks indulge in pleasant repartee.

The hero's always so polite, Esults no vulgar "dames," But merely puts the fee to flight With cutting epigrams.

There is no ranting and no rage, No wish to main or slay. The players tell about the stage In cultivated way.

The characters are culled with care. They are no common hams. The butter oven has his share Of timely epigrams.

AT THE THEATRES

AT THE LYCEUM

"The Vassar Girls" will be the offering at the Lyceum tonight and will furnish a diverting plot and various types of characters, together with a string of fun that shows the Sherman Musical Comedy Company at its best. It is a good comedy packed with good laughs. It is a vehicle, in which this company will have every opportunity to exploit their talents, brightened by mirth, melody and pretty girls. The beauty chorus will be the main feature with brand new costumes and some well selected songs. Thomas J. Benson will handle the main comedy part and being a natural comedian, Benson throws into his work an abundance of original sayings which merely make every member of the company will be well bestowed and something useful will come from the whole affair.

There is a matinee every day at the Lyceum and two complete shows at night with an entire change of programme twice a week.

MUSIC

A HAPPY REUNION

The visit of Madame Melba means the passing of another milestone in the city's musical history. So enthusiastic welcome was accorded her and so marked was the appreciation shown of her work and of that of the talented company with her, that those who direct the movements of the world's great artists would have no hesitation about including Edmonton in their American Itineraries in the future.

There are many reasons why Melba should be given the reputation that she is meeting with throughout her Canadian tour and which is said almost to equal in headlines that which she is accustomed to in her native Australia. As the most famous daughter of one of the sister British nations, her career makes a strong appeal to the imagination. Twenty years ago her name was one to conjure with, and though that is a long period in the life of a singer, there is absolutely no sign of abatement in her wonderful powers. It was the privilege of the writer to hear her fifteen years ago, and he expected that time would have had the same effect as in the case of other great countries, whose names come readily to mind. But Melba was an exception. It was more of a treat to hear her last night than on the previous occasion. She is not drawing size audiences on the strength of her past, but on that of a glorious present.

Her first number, the famous "Mad Scene" from Lucia, was given with dramatic intensity, while in the Jewel song from Faust, the bird-like qualities of her voice were given full play. But to the majority of her hearers Tosti's "Good-bye, love" in each, though it may be as a composition,

made the most intense appeal. After each number the diva was most rapturously encored and responded in each case.

Once-great singers, who still claim to answer to the description, are as a rule little inclined to have associates with them in their programmes who will shine out by way of contrast with them. With Melba, on the other hand, was a company of as talented musicians as ever surrounded a great artist. Mr. Quenell possesses a tenor of quality like to that of Ponsi. His solos were one of the chief delights of the evening. Such expression and such clear enunciation are seldom heard. Mile Sassoli's burp solos were revelations of the powers of that deacid instrument that we hear all too infrequently. Mr. John Lemmon's flute selections and particularly his accompaniment of Melba in the Donizetti number were delightful in the extreme, while Mr. Leclair gave a perfect demonstration of the art of accompaniment.

To Mr. George H. Sackling, whose enterprise is responsible for the great privilege of hearing such great artists, the people of Edmonton are deeply grateful. It was no small undertaking and the fact that the public has shown so keen an appreciation of his efforts by turning out in such large numbers, is a matter of much satisfaction.

Two English Girls Join Father and Brother After Five Year's Absence
A happy family party left the immigration hall. The girls were the Misses Emma and Alice Mickelburgh, who came from England to join their father and brother here. The Mickelburghs, father and son, have been here four and a half years, and, having proved and made a home for them, wrote to their sisters to join them here. They leave this morning for their native home at Tofield.

POLICE REPORT

The police report for the month of September shows that 132 persons were summoned or apprehended. Sixty-seven of this number appeared for breaches of the city by-laws, of which 55 were drunkenness, 12 for vagrancy. There were 27 convictions under the criminal code, including 5 for assault, 2 for false pretences, 2 for forgery, 1 for gambling, 13 for theft; one for uttering forged cheques, and 5 for vagrancy. Fines to the amount of \$563.00 were collected, while \$473.35 was paid in for licenses and \$40.30 for dog tags. Lost and stolen property to the amount of \$556.50 was recovered and returned to the owners.

RETURNS TO EDMONTON

Mr. J. B. Taft, of Edmonton, whose business it is to locate settlers in the country, northwest of here, returned to the city last night from a trip to the Athabasca country. He reports that he met a party of Canadian Northern engineers rushing a survey for a branch leaving the main line south of Lac Ste. Anne crossing the Lake at the Horse Shoe Narrows and heading towards the Pembina. Here it will join a former survey which runs towards Grande Prairie and the Peace River. There can be no doubt that this is a sure proposition for as soon as the survey is completed the Pembina right of way clearing will proceed with dispatch.

No Wonder.
The ancients thought the world was flat. I'm really not surprised at that; We'd find it flat, I dare to say. If we were living in their day. Just think, they had no auto then, No show girls to delight the men, No pipes to smoke and no cigars, No cocktails served at hand, No men to play and no pick teas, No linen speeding o'er the seas, No yellow journals and no gaze, No women's monstrous picture hats, No tariff problem to attack, No gowns that button up the back, No steel legs with measure rails, No monkeying with the price of food, No ice bills, no cold storage eggs, No bunco steers and no zepp, No trolley cars with clang and whirr, No Oddy to keep him still, Say, is it any wonder that The ancients thought the world was flat? —Yankeeover Province.

HUMOR AND PHILOSOPHY

Know Him.
"I'll have to ask you to pay fare for that little gentleman, sir," said the conductor.
"Pay for him?" exclaimed the florid face man. "Pay for that kid? Why, you could put him in your coat pocket!"

"That's all right. I happen to know who he is. He's Major General Molecul, the smallest man on earth, and he's twenty-six years old. If you want him to travel free you'll have to put him in underwear and a boy's jacket. Fare, please." —Chicago Tribune.

The Old, Old Story.
I told her the old, old story—
I told it as well as I could—
And, though it was aged and hoary,
She thought it was wondrously good.

Years passed. One morning she told it.
In all its rare beauty to me.
In whisperings soft she unrolled it.
With blushes, rare visions to see.
And strange, though the years had not changed it,
Though sweet as in seasons of yore,
It seemed from the way she arranged it,
As though I'd never heard it before! —Harper's Weekly.

Used to It.
After the usual greeting by Mephisto the couple were taken to their apartment in hush.
"I can't see," grumbled the husband, "that this place is any cooler than anywhere else we ever spent the summer."
"Well," argues his wife, "I suppose you would rather poke off to some middle somewhere where there is no society at all." —Life.

The Thrilling Life.

From Bad to Worse.
A gentleman was admiring his pigeons the other afternoon when he heard a curious "thud" and saw one of his birds drop from a window sill to the ground.
"Turning round, the gentleman was just in time to see a small boy in the lane drop a catnip and run."
After a short chase the culprit was caught.

"You young scoundrel!" ejaculated the angry owner of the pigeon. "What do you mean by coming and shooting my birds?"
"Please, sir, I didn't mean to do it," whined the culprit. "I—I didn't shoot at the pigeon."
"Come, come," said the gentleman, "don't make matters worse. I saw the bird fall, and if you did not aim at it how can you say to hit it?"
"Please, sir," whispered the boy, "the pigeon got in the way. I was aiming at the window." —London Tit-Bits.

Say you saw it in the Capital.

Natural Anxiety.
There was a swell social whirl about the city, but in two by an engine.
"How, I wonder," said he.
"Right half of the village," said he.

A SAFE THAT HAS STOOD THE TEST

Safes, good safes, are something that interest all business men. The Morris Safe and Lock Company, who are general agents for "The Hall's Safe Company," of Cincinnati, Ohio, are handling a safe of which they are justly proud. Although they did not have an exhibit at the local exhibition, more value to the man who is interested in safes than any mere exhibit. They have proofs of the actual work of the Hall's safe. These proofs come from Nelson, B. C., where one of their safes stood the extreme test of fire very successfully.

The following letters speak for themselves. They were sent to Mr. Percy Hall Johnson, the Calgary agent for the firm.

Dear Sir:
At the request of your representative Mr. R. F. Stevens, who asked me to write you in regard to the recent fire of July 5th, which totally destroyed the Kreschmer Shingle Mill, the Kootenay Engineering Works, Ltd., also a number of other houses. The fire was one of the worst and hottest Nelson ever had, destroying property worth \$30,000. There is no building in Nelson that could burn and be any hotter than they have something which is of far that of the Kootenay Engineering Works, in which stood one of your No. 345 thin wall, double door, Hall's Safe. The heat was so intense that it was not approachable nearer than thirty yards, lasting about two hours. The water thrown towards it, with 130 pounds pressure per square inch, turned into steam and floated away on the breeze before reaching the burning flames. The dial was hurled off, the bands twisted and the safe was badly warped from the intense heat, but it did the work it was sent to do, for when opened by the mayor of the Imperial Bank, Mr. J. M. Lay, the contents were in good order, which could hardly be expected of any safe.

I would gladly recommend the Hall safe as to its fireproof quality. Yours respectfully,
D. GUTHRIE,
Chief Nelson Fire Department, B. C.

Percy H. Johnson, Esq.,
Norris Safe & Lock Co.,
(General Agents, The Hall's Safe Co., Cincinnati, Ohio.)
Dear Sir:
(Kreschmer Shingle Mill Fire at Nelson, July 5, 1901.)
I am in receipt of your favor dated July 5th, and in compliance with request therein beg to inform you, that I have visited the scene of fire mentioned above and made a thorough examination of the Hall's Safe, which came through this fire. With pleasure I am able to inform you that the safe has apparently suffered no damage. Understand contents as whatever. Interior is in perfect when removed showed no signs of damage. Am informed that this was an exceptionally hot fire, and it must be gratifying to learn that you sold the test so well.

Trav. Auditor.

MODERN LIFE WOULD BE TOO HARD ON THE NERVES IF IT WERE NOT FOR WANT ADVERTISING!

The pace of life has become tense.

Worries, disappointments, up-sets at home and office, losses, discouragements seem to multiply as daily life becomes more complex.

The property owner, who MUST have a steady income from rents or lose his property, is "racked" by the untimely defection of a tenant. Some classified advertising quickly retrieves his loss—and quiets his nerves!

The salary earner unexpectedly loses his position—and his peace of mind. The strain would shortly "break" something in his nervous system if, once more, want advertising did not find the better job—and restore to him his mental equilibrium.

In every phase of the city's life, every day, the want ads play the part of the peace-maker. They SERVE you and me at some crisis in our lives—and keep the modern pace and tension from proving too fast and tight for us.

Truly, the want ads ARE FOR SERVICE!

Mr. Ramsey gives a medal for the points competition for boys under eleven; Alex. Taylor, H. E. Cushing are giving the prizes for first place in the public and high school basketball competition. Mr. McCauley and Mr. Lockert are donating basketballs to the second team in each case.

Strathcona is bringing out a sprinter in the provincial 100 yards—Arthur Dietz.

The program will begin promptly at 1.30 tomorrow afternoon.

LAMP EXPLODED

And Small Blaze Resulted in House on Namayo Avenue

Fire broke out last night at 9.30 in a frame structure, the property of William Fowler at 238 Namayo Avenue, occupied by William Card.

The explosion of a coal oil lamp is believed to be the cause of the outbreak. No one was in the house at the time but the flames were seen by a neighbor who sent in the alarm, Nos. 1 and 3 stations quickly responding. The fire had gained some hold when they arrived and the chemical engines were found to be unequal to the task, and water was therefore brought into play. After half an hour the blaze was extinguished and it was found that the damage which was not to a great extent, was mainly to the furniture on the ground floor, the building itself escaping.
